SUMMARY

Full-Stack Web Developer with versatile experience in building different types of solutions, SEO-optimized, and user-focused web applications. Skilled in backend API development, headless architecture, custom WordPress solutions, static architecture and secure deployment on Linux servers. Delivers clean, maintainable code and reliable project execution with clear communication.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, PHP, HTML5, CSS3.
Libraries/Frameworks: Tailwind CSS, Django, jQuery, Foundation CSS, Bootstrap, Flask.
Databases: PostgreSQL, MySQL, SQLite.
Tools / Platforms: Git, GitHub, WordPress, Nginx, VPS (Ubuntu), AWS, Postman, Prerender SEO, Certbot SSL, Notion, Jira, and Asana.
Core Competencies: REST API Development, Headless CMS Architecture, Authentication & Authorization, Performance Optimization, Server Deployment & CI/CD Planning.

TECHNICAL PROJECTS

Food Delivery Pro | Full-Stack Developer | Demo Link
*A multi-restaurant food delivery web platform with admin management system dashboard using **Django + Bootstrap + PostgreSQL.***

- Built a REST API backend in Django with authentication, order flow, and restaurant management.
- Developed responsive UI in Bootstrap 5 & custom CSS with dynamic cart logic and state management.
- Implemented an admin dashboard for managing restaurants, menus, users, and orders, supporting Ajax.
- Deployed on **Ubuntu Server + Nginx + Gunicorn** with full HTTPS / SSL configuration.

E7jzly — Service Booking Platform 2025 – Present | Demo Link
An existing MERN-based **service booking platform** for connecting customers with salons and spas, where I **redesigned** and improved the React frontend using AI-assisted development tools, **maintained the existing Node.js/Express backend**, and collaborated with the original developer.

- Built and maintained a MERN-based service booking platform using MongoDB, Express.js, React, and Node.js, supporting service discovery, **vendor branches**, and **customer bookings**.
- Implemented booking workflows connecting customers, vendors, branches, services, schedules, pricing, and availability across the platform.
- Worked on the platform's Arabic/English **multilingual** experience, including service and vendor content management for the Kuwait market.
- Collaborated with the existing developer to understand the codebase, implement frontend changes, **fix issues**, and connect UI features with existing **APIs**.

AcademyIK Website | Web Developer | academyik.com
Developed a professional website for a client specializing in water solutions.

- Designed and built a fully responsive WordPress website using the Sharaka theme, custom CSS, and theme modifications to match client branding.
- Collaborated directly with the client to deliver polished, user-friendly, fully responsive pages and Integrated contact forms.
- Applied semantic HTML and performance-focused CSS to enhance accessibility and SEO best practices.

PROFESSIONAL EXPERIENCE

Falcon of Codes | *Full Stack Developer* **| On Site, (Cairo)** **Dec 2025 – Present**

- Manage a Linux server and configure a pipeline for new sites.
- Integrating Next.js apps and redesigning exciting websites using React.js and different pre-made softwares.
- Build a backend logic and api’s using Django.

Mahmoud Zughbor
